Subject: Regional Government Services Authority reference check

Chair Finney and Members of the Board of Directors,

During my tenure as a Supervisor for Mendocino County, I have had the opportunity to observe Regional Government Services Authority on two occasions. Most notably, in recent months, they have provided extensive assistance with our financial systems. I regard them as a well-managed organization, characterized by self-awareness and integrity. They deliver expert-level performance without the profit motive that typically drives private consultants.

Should you decide to procure services from Regional Government Services, I am confident that their work product will improve district credibility.

The "Management Services Agreement Report" linked here (starting on page 21) highlights the broad scope of services provided to other public agencies:
